

Introducing the 13mm Silhouette[®] Cannula Only

February X, 2010

Dear Valued Medtronic Customer (Or letter shop in name),

In our effort to provide you with the best infusion set options, we are excited to announce the launch of our NEW Silhouette 13mm cannula size in the “Cannula Only” format. The 13mm cannula’s small size is perfect for active or lean adults and children.

The Silhouette Cannula Only format will consist of 10 cannula sites with no tubing. This will allow you the flexibility and choice of making your own combo set by mixing and matching a box of the new Cannula Only sites with a regular box of Silhouette infusion sets.

Suggested Combination Sets Using the NEW 13mm Cannula Only:

We recommend the following replacement product combinations:

Reminder: You will need to pair a box of the Cannula Only format with a regular box of Silhouette infusion sets to ensure you have both the cannula sites and tubing.

We are confident that the new Silhouette[®] Cannula Only infusion formats in both the 13mm and 17mm will provide the convenience and reliability you have come to expect from Medtronic infusion sets.
