

March 2010

**Paradigm® Reservoirs MMT-326A / MMT-332A
New Package – Better Product!**

Dear Valued Medtronic Customer,

Starting in January 2010, you may notice a new look to your reservoir boxes. We have made significant cosmetic changes to the packaging of our Paradigm® Reservoirs MMT-326A and MMT-332A. There is also an improvement change to the reservoir snap cap. The cap is made of a new material (acetal) which reduces the friction with the Paradigm® connector, has a tighter fit to the P-Cap and provides a more confirmation feel when you click it in.

Our packaging has been modernized and the instructions have been updated with the improvements of the new snap cap.

New Packaging and Instruction Example

Reservoir Reservorio Reservoir Serbatoio	Reservoir Salió Sprajle Reservatório	Tantály Pesepeyap כף Δείκτης	0459 1.8ml
REF	MMT-326A		
LOT	H1234567		
	2010-10
